

HmT

SYNNEX

Pre-engineered dosing control. Ready to install.

- ✓ **Pre-Engineered Dosing Control System**
- ✓ **Rapid Commissioning Workflow**
- ✓ **Integrated Protection & Control**
- ✓ **Accurate Dosing & Mixing Performance**
- ✓ **Standardized System Architecture**

HmT

SYNNEX

Designed for modern systems that demand precision, reliability and control.

LONGER SYSTEM LIFE

Controlled Dosing Technology

- Smooth start-up prevents pressure spikes
 - Controlled ramp-up before dosing stabilisation
- Protects components and extends system life

SMART OPERATION

Automated System Intelligence

- Scheduled or sensor-based dosing
 - Automatic start/stop based on demand
- Efficient operation with minimal intervention

PRECISION CONTROL

Accurate Dosing & Mixing

- Supports multiple dosing strategies
 - Consistent output and repeatability
 - Adjustable dosing set-points
- Stable performance and reduced waste

CONTROL & INTEGRATION

Advanced System Control

- Compatible control interfaces
- Integration-ready architecture
- Real-time monitoring capability

DESIGNED FOR INSTALLERS

- No custom design required
- Fast commissioning
- Reduced callbacks
- Repeatable Installations

SYSTEM PROTECTION

Built-In Safety & Reliability

- Dry-run / no-flow detection
 - Overload protection
- Less downtime, fewer failures
